

MOLECULAR VISION LABORATORY, INC.  
Billing Information

As you may know, coverage of genetic testing is payer and plan specific, and rare for ocular conditions. It is difficult for us to know all health plans, and a given patient's specific coverage. This document is meant to assist you with our billing processes for specimens sent for ocular genetic testing.

We accept three billing processes; institutional, self-pay, or insurance billing:

Institutional billing: Please provide us with your entity's billing address and contact information, so we can set up an account with you. We can obtain this information via our Requisition form, downloaded from our website or emailed to you. We will bill your account upon receipt and provide an invoice/statement on a monthly basis. Payment is due within 90 days of billing. Our Tax ID# is 81-2685042.

Self-Pay: Patients without insurance coverage for ocular genetic testing, will be asked to pay upon order via our Requisition. We accept all forms of credit card, money order, or personal checks. Personal checks will be deposited in advance of testing in order to clear the banking process. We have developed our fee schedule to be competitive and affordable. Our Tax ID# is 81-2685042.

Insurance Billing: Since coverage varies widely, we ask your assistance in determining a patient's eligibility for our testing. We do not bill Medicare or state Medicaid programs at this time. There is a document available on our website that lists the individual CPT codes and quantities billed, depending upon the test or panel ordered. The patient will be responsible for deductible or coinsurance, or full balance if denied, so we ask that they provide credit card information. Please be advised that due to state and federal laws, when we bill insurance MVL will send patient documents relating to HIPAA, etc. Our Tax ID# for insurance billing is 81-2685042.

Thank you for your interest in the Molecular Vision Laboratory, Inc.
